Number of visits by citizens during fall term, 28.

There has been considerable sickness as a result of very bad colds at the Hill and East Street schools. This is the reason for the low record of attendance in these two schools.

The general attendance in the different schools of the town has been very good indeed and much credit is due the parents for the excellent co-operation with the teachers in this particular phase of school requirements.

The schools of Clarendon as a whole are doing splendid work under the faithful guidance of the various teachers.

The work of the Parent-Teacher's Organizations and other Associations is worthy of the highest commendation.

Space will not permit giving, in detail what has been done in all sections of the town by these faithful groups of people.

I hope the time may soon come when all the schools of Clarendon may be listed as "Standard" or "Superior."

Four schools are now "Standard" and the others can be made so at a very reasonable expense.

I very greatly appreciate the substantial interest manifested in education by school directors, citizens, teachers and pupils during the past eight years.

Respectfully submitted

FREDERICK W. WALLACE

Superintendent of Schools
